Score 15 / 75 (20%) Duration 04m:28s

Presents Welcome to SPI Placement League 2022

Phase - 02

Timing: 12:00 Onwards

Venue : Softpro House (Sparrow Hall)

No of Rounds: 02

Round 1: Rapid Fire

Round 2: Live Coding and Self Evaluation

Rules of Quiz are As Follows:-

- 1. Event Manager Shuffles the Card, 1 Random Card Drawn by Choice will done By Jury member.
- 2. SG of Team, Has to Login His Account and Ask for the Quiz Assignment from Technical Operator.
- 3. Team Member Knowing the Answer has to Recall the Options or Answer Name, & Then SG, click the options and Proceeds.
- 4. Results will shown On the spot so that Results are not biased.
- 5. Judges will Note Down the Time of Each Team and Assign with Bonus if Qualified for the Bonus.
- 6. SG has to Declare if he is using, Staphne or Not

Round: Rapid Fire

- 1. Every Question is mendatory, you cannot skip any Question.
- 2. Every Question is asked in Random Order hence it donot follow any sequence.
- 3. You have 60 Seconds, for each Question and Timer will be Running on the screen (5 Minutes)
- + Another 60 Second For Bonus.(1 Minute)
- 4. Before you start the Question you will have a 3,2,1 count down before you start.
- 5. For Each Correct Option By Team Member gets +5 for Correct and -5 for Negative Options.
- 6. For Correct Option By Buddy Member gets + 25 for correct and -25 for Negative Options.
- 7. for SG correct + 10 and -10 for Negative Options.

- 8. You can use staphne (Mohd Kaif) for Scoring better, But have to compromise with the Team Member chance, and Risk Factor will Also be High
- 9. for Staphne Correct Option You get +5 wrong -10
- 10. Any Team who Submit Question within Before last 1 Minute, gets +10 Bonus (This is Maintained By Judges)
- 11. As Earlier Buddy is most Scoring Candidate hence Entire Team Can, Help the Buddy with Question.

All the Best to the Team !!!

×	1. for https, version is trustseal for clients/users
Points: - 5/5	
	C SSL Certificate ✓
	O TLS
	○ SSL ★
	C TLS Certificate
······	2. what should be the degree of in Math.pow() so that, this Equation is satisfied Antilog of 5 = 25. (for SG)
Points:	
10/10	⊙ 1/2 ✔
	O 1/3
	O 1/4
	O 1/5
	U 1/5
×	3 any external files when loaded from server url is called as
Points: -	C external files
5/5	⊙ libraries ¥
	None of the above ✓
	O resources
	4. which of the following is true about setInterval() function, which some one clicks calls setInterval 5 times
▼	• • • • • • • • • • • • • • • • • • • •
Points: 5/5	
	© Every time a new Thread is created. ✓
	O setInterval add no delay and go on executions multiple times.
	O the setInterval overwrites the Thread and Restarts the execution.
	C setInterval is synchronous, in nature.
